Las Vegas Scramble

Each player chooses one of the odd numbers 1,3 and 5

On each tee all 3 players drive off.

Then the dice is rolled:

- if it is odd then take the drive of the person allocated that number

- if it is even then choose the best drive

All play from whichever drive is used and choose as normal

(As it is random there is no restriction on the number of drives for any person)

£2.00 entry per player
